Mission Statement of Zonta Club of Denver:

The Members of Zonta Club of Denver are committed to the support and well-being of our community, our club, and ourselves, by improving the status of women and children and upholding the Objects of Zonta International.

President of Zonta Club of Denver: Margaret Fomer

Editor: Julie Bradley

Governor of District 12: Mary Benoit

President's Message for March . .

The Zonta Club of Denver mourns the loss of our fellow Zontian of 50 years, Maryethel Meyer, on February 20, 2003. Maryethel's memorial services were held on February 20th. Approximately fifteen Zontians were in attendance. The family made some very nice comments

about Zonta and Maryethel's involvement during their tribute and in her obituary. Maryethel was the first female pediatrician in Jefferson County, Colorado. She was a mentor for other women who entered the medical field to become doctors. She provided camp physicals for Denver Girls and assisted as needed with their health concerns. Maryethel will be greatly missed by our Club as well as by the medical community. She will be honored during our Member Moments at the March membership meeting,

Enclosed is the committee selection form for next year. Can you believe it is that time of year already!!! Please bring you committee request to the March meeting so that Evie can begin planning for next year. If you will not be in attendance at the meeting please email, fax, mail or phone in your selection to Evie.

The registration forms for the Area 3 meeting on April 5th will be mailed or emailed to you. Please plan to attend. The cost is only \$25.00. The Club will pay for all new members to attend. It will be fun since we will be doing a joint service project at the meeting assembling baskets for the teen moms at Ogden House.

Understanding the WHI study: Assessing the results

The HRT component of the WHI Study

- * The hormone replacement therapy (HRT) component of the Women’s Health Initiative (WHI) study, conducted through the National Institutes of Health (NIH), was designed to investigate the long-term benefits and risks of estrogen plus progestin therapy (combination HRT, generally prescribed to women who have not had a hysterectomy).
- * The combination HRT component of the WHI study was discontinued after an average following up of 5.2 years because the risks outweighed the benefits.
- * This study was not designed to assess the relief of menopausal symptoms, such as hot flashes, night sweats, and vaginal dryness.
- * The following results are from the combination HRT component of the study. The estrogen-alone component of the study continues.

Understanding the results of the combination HRT component

The chart below outlines the increase/decrease in health events per 10,000 women annually for those not taking HRT (placebo) vs. those taking combination HRT.

	10,000 women / year taking placebo	10,000 women / year taking combination HRT	Difference per year
Breast Cancer	30	38	8 more women with breast cancer
Heart Attacks	30	37	7 more women with heart attacks
Strokes	21	29	8 more women with strokes
Blood Clots	16	34	18 more women with blood clots
Colorectal cancer	16	10	6 fewer women with colorectal cancer
Hip fractures	15	10	5 fewer women with hip fractures

* HRT is not indicated for the prevention or treatment of colorectal cancer or hip fractures

Talking to your health care provider

The study re-emphasizes the need for a woman to discuss with her doctor on an ongoing basis her personal treatment goals and medical history, which can be evaluated along with the known risks and benefits of combination HRT

Zonta Rose Day/International Women's Day 8 March 2003

As Zonta Rose Day, 8 March, approaches, the Zonta International Foundation would like to encourage Zontians everywhere to mark the occasion in a special way. Coinciding with International Women's Day, Zonta Rose Day provides an opportunity for Zontians to initiate special fundraising efforts and increase their community's awareness of Zonta International, both of which will further our mission to advance the status of women worldwide. Past Club and District activities have included fundraising efforts designed to support the Rose Fund (the Foundation Annual Operating and Program Support Fund) by honoring community leaders who have acted to better the lives of women, selling yellow roses, and more.

Visit the Zonta International Web site, www.zonta.org to learn what other Clubs are doing this year....

Zonta International's Web Site:

If you are in the habit of visiting Zonta International's Web site, you will find that there is a new addition..on the member resource center pages you need a user ID and password. In order to access information on those pages—reports, applications, graphics, calendar, idea box, help center, market place, etc....

After you enter the user ID and password it asks you for your name, email and club name (for the first time only) and then you are set to go!

The user ID is: **zontainternatl**

Password is: **Amelia**

It is as simple as that! Enjoy visiting the web site—there is a wealth of information on it. Including the new Member Classification System—there are 23 pages of careers made to handle any job you may have. International is requiring us to update our classifications based on that new system. A copy will be available at the meeting to help you decide what your new classification

number is.
